ABOUT US

Yarwood Memorial Products is a family-owned business, led by mother-and-daughter team Cheryl and Hannah Yarwood, with the valued support of Megan Fey.

Since 2015, they have been dedicated to designing and sourcing thoughtful memorial urns and keepsakes from around the world. Their focus is on helping families honour loved ones with dignity and care, while remaining ethically responsible in every aspect of the business. In October 2023, they rebranded with a fresh new look and company name to reflect their continued growth and commitment.

As part of their environmental promise, Yarwood Memorial Products partners with Tree Nation to support global reforestation. For every product ordered through their online store at www.yarwoodmemorials.co.uk, one tree is planted.

LUXURY GLASS URNS

They are bright, colourful, and tactile, making them a beautiful alternative to a traditional casket or urn. Either rest the ornate lid on top, or seal with silicone or glue.

TIERRA ECO URNS

The Rio, Pura, Bola and Arena Urns are made of air-dried clay. Simply seal with water or glue to keep the ashes safe inside. They can be stored inside the home without degrading for years to come. Once buried, they take around four weeks to degrade, or 20 minutes to dissolve in water.

The Hielo and Fuego Urns are made of clay and then fired and glazed so will take approximately 10 years to biodegrade once buried. Glue provided to seal the lid.

Urns have water-soluble/biodegradable bags inside.

SCULPTURAL BRONZE URNS

Cast in bronze, these stunning sculptural urns can be placed inside the home or outside in the garden. They are sealed with a threaded closure and are water tight.

When left in nature, bronze will develop verdigris as it oxidizes over time. This can be delayed by applying a coat of natural beeswax occasionally, if desired.
